MISSION STATEMENT

The Ontario Barrel Racing Association (OBRA) has been formed to promote western speed events, particularly barrel racing, in Ontario.

ACTION PLAN

To this end, we will seek to improve the skills and abilities of speed event competitors, by providing for events with adequate prize money, organizing or endorsing clinics by competent instructors and encouraging the breeding and training of horses specifically for speed events. We will strive to obtain sponsorship whenever possible, as this will strengthen and give exposure to our sport. As this is a nonprofit organization, all proceeds of OBRA activities will be returned to tasks that benefit the members and promote speed events in Ontario.

THE IDEAL BARREL RACING PATTERN

This pattern is strongly suggested, when space permits. Move holding pen away from arena entrance as far as seems reasonable to prevent crowding the horses waiting to run.

At show organizers' discretion the barrel pattern may be altered to have a minimum 60 foot shut-down and alter the pattern accordingly. No horse/rider are permitted in the chute during a drag.

executive time to get the information out to our membership at least 30 days prior to the show. OBRA class payouts must be adhered to. Contact your District Director (Please refer to our web page).

2. Organizations and individuals requesting OBRA sanctioned shows must allow OBRA to display OBRA and their sponsors' promotional items.

3. Open exhibition runs will be at the discretion of the individual holding the show, but must be held and completed prior to the scheduled start time. If open exhibition runs are held, entries for the show must be completed before contestants have an exhibition run.

4. The actual show arena will be open for general riding prior to the show.

5. Arena grooming should be provided to give the same safe footing to each horse. There will be a drag after every 5 horses, but this can be changed by the executive/show manager if the ground will hold up to more runs. OBRA executive/show manager reserves the right to refuse to stage or sanction OBRA runs if the ground or arena conditions are not suitable or are deemed to be unsafe.

6. The OBRA will sanction shows on a first come, first served, basis, and reserves the right to refuse sanctioning for a particular date or show, if it is determined not to be in the best interest of the OBRA. To be sanctioned, a show must offer all OBRA members in good standing the opportunity to compete.

8. OBRA endeavors to make every sanctioned show as safe as possible for all riders and spectators. We are offering the following recommendations to achieve this end. Arena with solid type fencing, with the boards inside of posts (ie. no snow fence or rope gates) and the use of a sufficiently wide chute are strongly recommended. Steel projections should be covered or removed. A warm-up and on deck area is recommended to separate spectators and vehicles from horses and riders. A minimum of 45' stopping zone after the timer and the use of straw/hay bales to protect the riders is recommended to protect the riders from running into chute mouth corners is recommended.

9. Availability of a first aid kit or St. John's Ambulance personnel on the show grounds is highly recommended

10. The barrel pattern at an OBRA show must meet the following conditions a 1) a minimum of 17 feet from each of the first two

barrels to the side fences. 2) a minimum of 25 feet from the third barrel to the back fence, 3) a minimum of 30 feet from the timer line to the first barrel. The show organizers should use a barrel pattern that best fits their arena, subject to the above recommendations.

11. The course must be exactly the same for all competitors. Position of each barrel must be precisely measured and staked so the course can be restored exactly after a knockdown.

12. OBRA recommends that a chute boss be used to promote safety and keep show running efficiently.

13. In the event that the executive/show manager determines that the barrel positions must be changed for safety reasons, in the middle of a class, the entire class will be restarted from the position that it is stopped. The competitors that rerun will do so in the original order after the last horse of the original draw.

14. If at any time, the arena is deemed to require water for the safety of horse & rider, then it shall be watered no matter how many horses have run and the order shall continue where left off.

BARREL RACING PATTERN

The correct pattern shall be: run across the start line to barrel #1, pass to the left of it and complete an approximate 180 degree turn around, then go to barrel #2 pass to the right of it, and do another 180 degree turn around, then go to barrel #3, pass to the right of it, and do another 180 degree turn around, and then sprint to the finish line, passing between barrels #1 and #2. This course may also be run to the left, in exact reverse of the pattern described above.

2. Failure to follow the course shall cause a contestant to be disqualified.

3. A 5-second penalty will be incurred with each barrel knocked down in the Futurity class only, a knocked down barrel in all other classes will result in a disqualification.

4. Each barrel of the pony barrel race pattern will be moved inward 2 paces from the open pattern.

One point is earned for each horse placing below each entrant, to a maximum of 10. Points will be awarded only to the top 10 competitors. Example: 1st = 10 points, 10th = 1 point. If less than 10 in a class, it will be 1 point for each horse in that class.
